Welcome To CRAFTERS Apparel

**Not just blank – better**

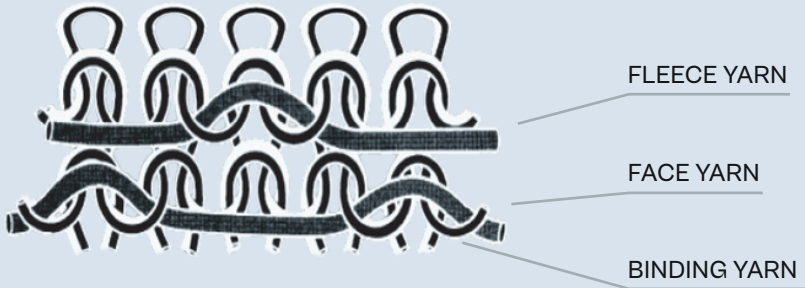

**When it came to hoodies**

Truth be told, we saw a problem. Every blank apparel manufacturer in the USA seemed to offer the same thing—same fabric, same fit, same vibe. And if everything's the same.

**How can your brand stand out?**

At Crafters Apparel, we set out to create something better. Hoodies that feel softer, last longer, and represent your brand. But we didn't stop there—we did it with a 3-end knit and we wanted to do it responsibly. That's why we focus on making premium hoodies in away that cares for people, brands, and the planet.

The 3-end process can be more expensive partly due to the addition of a third yarn - **but it's so worth it.**

## Sustainability:

We Care About the Planet Taking care of the planet is a big deal to us. That's why we're always looking for ways to make better choices, like using eco-friendly fibers and reducing waste in our processes. Every hoodie we make is part of a bigger goal—to leave the planet better than we found it. When you work with us, you're choosing a brand that cares as much about the earth as it does about your success.

**Our sustainable hoodies don't guzzle resources like there's no tomorrow—because we'd like there to be a tomorrow.**

## Microplastic Mess

Every time synthetic clothes are washed, they shed tiny plastic fibers that end up in the ocean. Fast fashion accounts for 35% of all that microplastic gunk, and polyester is the biggest culprit. We use materials that leave the ocean as pristine as your laundry pile burdened by landfills. Landfills aren't just an eyesore. They disproportionately impact BIPOC communities and countries in the Global South. A lot of that waste comes from discarded fast fashion.

We want to change this narrative with thoughtful production and responsible disposal.

### Water waste woes

The fashion industry uses enough water every year to hydrate 5 million people.

**Five. Million. People.**

# CUSTOM MANUFACTURING

From development to delivery

## Let's make something amazing together

Our team is ready to help you achieve your vision. Share your needs, goals, and ideas, and our experienced client success agents will discuss how Crafters Apparel can help fulfill those aspirations.

### Design:

- Conception Ideation
- Sourcing Fabrications
- Trims & Color Options
- Labelling, Packaging and Fulfillment
- Competitive Pricing

### Price:

Our factory ownership gives us full control over quality and consistency, enabling us to offer you exceptional products at the most competitive prices in the market.

# Social Responsibility

We Craft with Comfort and Responsibility  
Making a great hoodie starts with the fabric. We're a custom blank fleece hoodie manufacturer specializing in three-end knit fleece that makes sure every hoodie feels amazing, fits perfectly, and can be kept for many years to come.

But comfort isn't enough—we care about how it's made. As a USA-based blank apparel distributor, we partner with the Better Cotton Initiative (BCI) to use more sustainable cotton and eco-friendly processes.

When you wear or print on our hoodies, you're not just choosing comfort—you're choosing responsibility, too.
